

TECH PREP

In the Tech Prep program, students focus on developing specific skill sets in technical, high-demand fields. Students taking this pathway to college will find themselves entering college at a higher readiness level and with college credits already to their name—and, often, with a Tech Prep scholarship for their achievements. Sinclair Community College reports that Tech Prep students have higher attendance rates, make better grades, require fewer remedial classes, and are less apt to drop out of college.

High school sophomores are eligible to sign up for a Tech Prep program to begin their junior year of high school. Prospective Tech Prep students must meet the following minimum requirements:

Preferences:

- Have a 2.0 GPA
- Have passed Algebra I with a “C” or better
- Have passed Biology I with a “C” or better (for Allied Health Technologies Tech Prep, Biotechnology Tech Prep, and Sports Medicine Tech Prep)
- Computer keyboarding skills.
- Good attendance.

Tech Prep Scholarship

Tech Prep is a Grade 11 through associate degree program that prepares students to begin a career or complete a bachelor’s degree. Students completing high school requirements of the Tech Prep program and meeting the scholarship qualifications are eligible to receive a \$3,000 scholarship. The scholarship may not exceed \$1,500 a year, beginning the fall quarter of the academic year immediately following high school graduation.

The scholarship can be used at Sinclair Community College within the three years following high school graduation.

- Masonry
- Mechanical Construction & Plumbing Systems Technology
- Medical Secretary

Tech Prep Awareness Days

The purpose of the Tech Prep Awareness Days is to provide qualified high school sophomores, their parents and high school staff members an orientation to the college level portion of each Tech Prep programs.

Awareness Days are offered for each of the Tech Prep programs currently in operation in the Miami Valley area and all are held during February annually on the campus of Sinclair Community College.

During a typical visit, students will visit Tech Prep labs and participate in "hands on" activities with a college professor, tour the Sinclair campus and have lunch and a question and answer session with college and Tech Prep representatives.

Sign-up For Tech Prep Awareness Days

Information will be given at the December home school counselor meeting concerning sign-up for Tech Prep Awareness Days.
