

I am in need of a HVAC person, my customer is looking for someone that is fresh out of your Adult Ed or High School HVAC program who is wanting to make the HVAC trade a lifelong career. He is looking for someone who has some basic skills and can be trained/taught his ways of doing things. Please let me know what additional information you may require. If they could send resumes to lwdayton@sbcglobal.net with HVAC in the subject line it would be greatly appreciated.
