

Job Opportunity

MOHLER'S WOODWORKING INC. has an opportunity for motivated, creative individuals to join our crew. We manufacture and install custom cabinets in residential and commercial settings. The preferred position is full-time and overtime is common. Part-time will be considered on a structured schedule, Co-op students welcomed. The position requires numerous skill sets and a desire to learn best practices while working closely with others. Applicants need to be proficient in basic math and measuring skills.

Best results for this position will be obtained by someone who doesn't mind working in the same facility the majority of the time and periods of repetitious work. A willingness and ability to follow detailed instructions, perform to the standard, and become fluent in reading/comprehending blueprints and material

lists, and cutting lists for parts. Cross training for numerous skill-sets is required for successful employment.

Physical fitness required:

For long shifts on concrete floors

For frequent lifting and moving of 50- 100+ lbs items with good balance

For the need to quickly get up and down step ladders/up and down from floor positions when working at installing jobsites.

Experience is not a requirement but is advantageous to the position.

Full time employees receive 6 pd. Holidays after 90 days and pd. Vacation after 12 months. Part time receive no pd. Vacation or Holidays.

Pay is dependent upon skill sets mastered and production performance rate.
