MVCTC Helps High School Seniors Plan for College

Clayton, Ohio – Miami Valley Career Technology Center (MVCTC) high school seniors were presented with a wealth of information to help plan for their future at the Third Annual MVCTC College Fair held on November 4, 2009, in the MVCTC Student Activity Center. The event included 38 technical/community colleges and universities from all around Ohio.

This was a great opportunity for seniors to meet with representatives from different post secondary institutions, ask questions, and learn what type of financial and academic opportunities are available. Many MVCTC students came prepared with transcripts and “brag sheets” giving the colleges an opportunity to accept some students on site. The colleges appreciated the enthusiasm and maturity of MVCTC students.

Gaye Gerren, MVCTC Guidance Counselor and college fair organizer, said, “This event helps to make our students aware of the discipline and preparation needed to apply and hopefully to be accepted by these institutions. It gives our staff the opportunity to feed off the motivation and enthusiasm generated from the event. Informs staff as to what schools support their particular programs and what the requirements are to acceptance into them.”

MVCTC offers rigorous academic preparation and hands-on career technical training for high school junior and senior students in the Miami Valley. For more information about career technical programs offered at MVCTC, please visit www.mvctc.com or plan on visiting the Sophomore Open House scheduled for Thursday, December 10, 4:30-7 p.m. The Open House will give high school sophomores and their parents a chance to meet career technical instructors, visit the 50-plus career programs offered at MVCTC, learn more about MVCTC early

college connections, and tour the campus. Please call 937-837-7781 for more information.
