For Immediate Release – **March 2012**

**MVCTC Power Technology Students Compete in FFA Contests**

**Clayton, Ohio** – Miami Valley Career Technology Center (MVCTC) Power Technology students competed in the FFA District 5 Agricultural Industrial Diagnostics Contest at Apple Farm Service in Botkins, Ohio. The team of Jacob Putoff (Versailles) and Sam Everett (Miami East) placed first out of 18 teams at the district contest and qualified to compete at the State FFA contest held on March 9, at the University of Northwestern Ohio (UNOH) in Lima. At the State Agricultural Industrial Diagnostics Contest, the team placed seventh out of the top 15 teams in the state. Each student will receive a \$2,000 scholarship to UNOH.

The Agricultural Industrial Diagnostics Contest requires students to use the knowledge learned from their career technical program to trouble shoot various pieces of equipment including tractors, lift trucks, and mini excavators. The students had 20-minutes to use a systematic procedure to find and repair two malfunctions based on information provided by the customer.

MVCTC is very proud of our students and congratulates them on their great accomplishments. For more information about MVCTC and the 50 exciting career programs offered to high school juniors and seniors, or the career training opportunities offered to adult students, please visit [www.mvctc.com](http://www.mvctc.com) or [www.ctctube.com](http://www.ctctube.com).
