Miami Valley CTC Students Create Northmont Hall of Fame Video

Clayton, Ohio - Miami Valley Career Technology Center (MVCTC) Media and Video Production Tech Prep juniors recently completed a client project for the Northmont Hall of Fame Committee that included creating a video to honor the most recent Hall of Fame Inductees. The team of James Hardy (Eaton), Anthony Morgan (Dixie), Bradley Paynter (Carlisle), and Jacob Simpson (Carlisle) worked with Robin Spiller (Northmont Athletic Director) and Jennifer Wood (Northmont Information Officer) to create the video.

MVCTC student, Bradley Paynter, said of the project, “Northmont wanted to recognize the inductees not only with an award, but with a video. We worked together and came up with the idea of pictures of the person being inducted and a spoken biography of them in the background. We really enjoyed this challenge and were happy to help Northmont. ”

The MVCTC Media and Video Production Tech Prep program gives high school students many first-hand, independent learning opportunities such as this Northmont Hall of Fame video project. It is a wonderful way for students to learn valuable problem solving and interpersonal skills that will make them employable upon graduation. The Media and Video Production Tech Prep students have completed other client projects in the past for Mary Scott Nursing Home, Arcanum Athletic Department, the Ohio Department of Education, MVCTC, etc. To learn more about opportunities in this program for high school juniors and seniors, visit <http://www.mvctc.com/mp>. If you have a client project that you need assistance with, please contact Mr. Patrick Carlisle, MVCTC Media and Video Production instructor at 937-854-6304.
