For Immediate Release –*April 2012*

Senior Success Stories - Mary Kate Moore, MVCTC 2012 Dental Assisting

What are your career goals?

As senior year ends, I have realized that goals certainly change with time. At the beginning of my junior year, my goal was to graduate; at the beginning of my senior year it was all about getting a job and getting out of school, now my goal is to be the best that I can be and push myself through dental hygiene school within the next two years.

What college are you planning on attending?

I plan to use my Tech Prep Scholarship to Sinclair Community College this coming fall.

What are you majoring in?

I plan to major in Dental Hygiene and become a certified Dental Hygienist by the time I am 21.

When you leave Miami Valley CTC how many college credits will you have earned?

When I leave MVCTC, I will have eight college credits. I received six hours during my junior year in my anatomy class, which doubled as a BIO 106 class at Sinclair. As a senior, I am taking DEH 120, a terminology class worth two credit hours.

What has Miami Valley CTC done for you?

MVCTC has opened my mind to a whole life I would have never had if I had gone the traditional route. MVCTC made me love learning and made me want to come to school, which is not an easy thing to do. I learned things here that will go with me for the rest of my life from public speaking, on the job skills, to interpersonal skills. MVCTC staff has blown me away, my lab teacher and mentors helped me to get the awesome job I have today. MVCTC gave me a future and I cannot thank them enough for that.
