Students Study Math and Science over the summer

Clayton, Ohio – The Miami Valley Career Technology Center (MVCTC) held their sixth annual Science, Technology, Engineering, and Mathematics (STEM) Camp June 17-21, 2013. The camp is for students entering the sixth through eighth grade with an interest in math and science. This year over 75 students from school districts all over the Miami Valley attended STEM Camp.

Students developed problem solving and critical thinking skills while exploring the following career areas: Sports Medicine, Graphic Arts, Environmental Science, Computer Technology, Graphic Arts, and Biotechnology. Participants worked with Math, Science, and Career-Technical instructors to build their understanding of how math and science is applied to these career fields.

The MVCTC STEM Camp is a success for students and staff and continues to help promote the importance of math and science skills to students in a fun and educational environment.

For more information about MVCTC, please visit www.mvctc.com.

For over 40-years, MVCTC has been providing career technical education for 27 partner school districts encompassing five counties in Southwest Ohio. MVCTC is dedicated to providing in-demand workforce training for youth, adults, and organizations in the Miami Valley.
